What you can expect on this course

Comprehensive course offering

Using AI tools, you will develop a wide range of new skills that will improve your written English.

Create effective AI prompts

Sharpen your strategic thinking and consideration sets

Analyse AI-generated responses

Brainstorm, organise texts and assess tone choices

Draft content

Discuss how to write ethically and edit for originality

Professional focus

- Like all EC courses, Writing with AI is designed to be practical and immediately usable. Perfect for professionals looking to hone business writing skills, this course focuses on helping you write emails, CVs, cover letters, blogs, LinkedIn posts, reports and proposals.

Exceptional instructors

- Our Writing with AI instructors are not only qualified teachers, they're also knowledgeable about AI specialists who can tailor lessons to the workplace needs of professionals in a wide variety of business situations.

Full support

- Every step of the way, your instructors will be there to guide you, provide constant feedback and help track your progress. With our full support, and the support of like-minded classmates who share your goals, you'll acquire the business English fluency you need to advance your career.

Improved critical thinking skills

- Build confidence in your written English and in your unique writing style as you begin to think more strategically about AI prompt engineering, more critically about AI-generated responses, and learn how to apply your knowledge in a workplace environment.

Guaranteed results

- As long as you follow your programme, we guarantee that you will have the confidence to improve your writing. By the end of a 4-week course, you will have learned how to: Use a range of AI tools and systems, write effective AI prompts for brainstorming and text modelling, produce four kinds of texts, analyse texts, recognise different styles, and edit AI responses to reflect your own voice and style.
