Writing with AI

An English writing course for the modern AI workplace

Artificial intelligence is already being used to write emails, reports, posters, and blog posts in today's modern workplace. But many professionals feel unsure about the results. Does the writing sound like you? Is the tone right? Is it clear, appropriate, and original? Writing with AI is a practical English writing course that helps you to stay in control of your written English in an AI-assisted world. You'll learn how to use AI as a support for thinking, drafting, and editing, while also developing the skills that matter most when it comes to writing: clarity, structure, tone, and your own professional voice.

Take your English writing to the next level

Unlock new opportunities for confidence and fluency

What you can expect on this English writing course

Comprehensive course offering
Using AI tools, you will develop a wide range of new skills that will improve your written English.

A different genre each week

Each week you'll learn to master a different workplace writing genre: emails, blogs and online posts, reports and proposals, and CVs and cover letters.

Writing skills

Learn organization, paragraphing, linking, key phrases for a range of formalities, and much more.

Use AI as a co-creator

Brainstorm ideas, draft content, assess tone, and edit for originality.

Professional focus

- Like all EC courses, Writing with AI is designed to be practical and immediately usable. Perfect for professionals looking to hone business writing skills, this course focuses on helping you write emails, CVs, cover letters, blogs, LinkedIn posts, reports and proposals.

Exceptional instructors

- Our Writing with AI instructors are not only qualified teachers, they can also tailor lessons to the workplace needs of professionals in a wide variety of business situations.

Full support

- Every step of the way, your English teachers will be there to guide you, provide constant feedback and help track your progress. With our full support, and the support of like-minded classmates who share your goals, you'll acquire the business English writing fluency you need to advance your career.

Improved critical thinking skills

- Build confidence in your written English and in your unique writing style as you begin to think more critically about AI-generated responses, and learn how to apply your knowledge in a workplace environment.

Guaranteed results

- As long as you follow your programme, we guarantee that you will have the confidence to improve your writing. By the end of a 4-week course, you will have learned how to: Use a range of AI tools and systems, write effective AI prompts for brainstorming and text modelling, produce four kinds of texts, analyse texts, recognise different styles, and edit AI responses to reflect your own voice and style.
