What can you expect on this course?

Creative and energetic classes

When it comes to creating engaging lessons, our teachers know what works. Classes are dynamic and motivating, designed to build upon your strengths, while giving targeted attention to the areas in which you need more help. Relaxed and informal classroom environments create an encouraging atmosphere to help you build your confidence, realise your potential, and advance toward fluency.

Real-life application

We help you to develop your English systems (grammar, vocabulary and pronunciation) and skills (reading, writing, speaking and listening), while also building the learning skills that will give you the confidence to use what you've learned in real-life situations.

Learn by doing

At EC, progress is maximised as you are encouraged to learn by doing. Our task-based lessons promote class participation and interaction between students. We provide you the targeted support to help you achieve your academic goals. And our assessments give you feedback on how you are progressing and where you need more help.

Improved 'thinking time'

As your skills and confidence develop with support from your teachers, so too will your ability to listen, understand and respond quickly and effectively in English. You'll really notice these improvements when you take your English outside the classroom into everyday conversation with English-speaking locals—and find you need to think quickly on your feet.

Exceptional support

Your teachers are trained to deliver ongoing support, feedback and care throughout your time at EC. You will be taught by at least two teachers, exposing you to a variety of voices, improving your listening and boosting your vocabulary.

Authentic materials

We believe there is no substitute for authentic English, so in addition to textbooks, our teachers use real-life resources taken from newspapers, TV, radio and the internet. These authentic materials will give you an appreciation for how the English language is used in a variety of everyday contexts.
